

Seminar

IT IS TIME TO FLIP YOUR CLASS

Organized By

Electrical Engineering Department

Flipped Classroom is a techniques that responds very well to the contemporary changes and challenges in education. It enforces the skill of self-learning in students and helps to achieve high learning outcomes. It is a win-win for students and faculty. The seminar will shed light on how to flip your class and on the benefits gained out of this.

**Tuesday
31 Jan. 2023**

**1:10 PM
2:00 PM**

Speaker

Dr. Maan A. Kousa

Associate Professor
Electronical Engineering, KFUPM

Dr. Maan Abdulgader Kousa is an Associate Professor in EE. During his 35+ years of teaching and training, he developed top-notch expertise in the field of active learning and student-centered pedagogies.

He presented several seminars and workshops, nationally and internationally, on enhancing student learning. Dr. Kousa is an active associate with DAD, where he delivers a couple of training workshops annually on teaching pedagogies to KFUPM faculty.

Dr. Kousa is also a certified Peer Consultant in Teaching. Dr. Kousa holds a B.S. degree in physics, B.S. and M.S. degrees in Electrical Engineering (all from KFUPM), and a Ph.D. in Electrical Engineering from Imperial College, London.
