

King Fahd University of Petroleum and Minerals

Department of Mathematics & Statistics

MATH 202 Syllabus, Term 221

Coordinator: Dr. Husain AlAttas

**The Course Code and Name:** MATH 202, Elements of Differential Equations

**The Course Credit Hours:** 3-0-3

**Textbook:** A First Course in Differential Equations by D.G. Zill, 10th Edition

**The Course Content:** First order and first-degree differential equations. Linear Models. Homogeneous differential equations with constant coefficients. Undetermined Coefficients: annihilator approach, reduction of order, variation of parameters, and Cauchy-Euler equation. Series solutions. Systems of linear first-order differential equations

**The Course Prerequisite:** MATH 102

**The Course Learning Outcomes:** Upon completion of the course, students should be able to:

1. Solve different types of first-order differential equations, including separable, exact, homogeneous, linear and Bernoulli equations.
2. Discuss basic theory of linear differential equations.
3. Solve real-world problems related to growth and decay, and heating and cooling.
4. Find general solution of homogeneous linear differential equations with constant and variable coefficients.
5. Apply the methods of undetermined coefficients and variation of parameters to solve non-homogeneous linear differential equations.
6. Use series method to solve a second order differential equation.
7. Solve systems of linear homogeneous and nonhomogeneous differential equations.

**The Course Grading Policy:**

	Date	Time	Place	Materials	Percentage
<b>Exam I</b>	Monday October 3, 2022	TBA	TBA	[1.1-3.1]	25% (100 pts)
<b>Exam II</b>	Monday November 7, 2022	TBA	TBA	[4.1-6.2]	25% (100 pts)
<b>Final Exam</b>	TBA	TBA	TBA	comprehensive	35% (140 pts)
<b>Online Homework</b>	On WebAssign (Through Blackboard)				5% (20 pts)
<b>Class Work</b>	<ul style="list-style-type: none"><li>It is based on quizzes, class tests, or other class activities determined by the instructor.</li><li>The average <math>x</math> (out of 40) of the class work of each section should be in the interval [28, 30] ([70%, 75%] of the class work grade.</li></ul>				10% (40 pts)

**Exam Regulations:**

- No student will be allowed to take the exam if he doesn't bring his KFUPM, National, or Iqama ID card with him to the exam hall.
- Students are not allowed to carry mobile phones and smart watches to the exam halls.
- A student must sit for the exam in the seat assigned to him.

**Exam Questions:** The questions of the exams are based on examples, homework problems, and exercises from the textbook.

**Cheating in Exams:** Cheating or any attempt of cheating by use of illegal activities, techniques and forms of fraud will result in a grade of **DN** in the course along with reporting the incident to the higher university administration. Cheating in exams includes (but is not limited to)

- Looking at the papers of other students
- Talking to other students
- Using mobiles or any other electronic devices

**Missing an Exam:** In case a student misses an exam (Exam I, Exam II, or the Final Exam) for a legitimate reason (such as medical emergencies), he must bring an official excuse from Students Affairs. Otherwise, he will get zero in the missed exam.

**Letter Grades:** The letter grades are based on curved grading (a grading curve), which will depend on the average of all students taking the course.

**Attendance:** Students are expected to attend all lectures.

- Students need to strictly adhere to the attendance policy of the university.
- DN-Grade will be assigned to the eligible students after their instructors have warned them twice.
- If a student misses a class, he is responsible for any announcement made in that class.
- A DN grade will be awarded to any student who accumulates
  - 9 unexcused absences in lecture classes.
  - 15 excused and unexcused absences in lecture and recitation classes.

(Note: the general rule for DN: 20% unexcused absences of the number of classes, and 33% excused and unexcused absences of the number of classes.)

**Academic Integrity:** All KFUPM policies regarding ethics apply to this course. See the Undergraduate Bulletin.
