**About KFUPM Comprehensive Online Courses**

KFUPM Comprehensive Online Courses are developed at the e-Learning Center, Deanship of Academic Development (DAD), in coordination with various academic departments at the university.

Some of the main benefits of online courses that KFUPM would like to utilize can be summarized in the following:

- Enhance teaching and learning and supplement traditional ways of learning.
- Promote learner-centered education.
- Flexibility to access quality educational material from any where and at any time.
- Engage learners actively in the learning process.
- Access to additional online resources.
- Standardize delivery of course material.
